

AWAY

DEFOAMER CONCENTRATE

DESCRIPTION

This **highly concentrated**, silicone emulsion defoamer is **especially designed for a wide range of industrial, institutional, janitorial, and municipal foam problems**. It is **superb for foam control** in carpet extraction, sewage treatment plants, textile processing, street sweepers, pressure washers, laundries, floor scrubbers, dish washing machines, hot vats, as well as any application where excess foam is a problem. Furthermore, this product **will not affect detergency**, is **very effective in hot or cold water systems**, and it can be mixed with various detergents or cleaners when desired. Best of all, **a little bit goes a long way!**

BENEFITS - FEATURES

- * Highly concentrated
- * Fortified with silicone
- * Prevents foam build-up
- * No harsh chemicals
- * Rinse-free
- * Breaks all types of foam on contact
- * Safe to use
- * Use in all types of machines

ADVANTAGES

- * Destroys foam immediately upon contact
- * Ensures full utilization of mechanical pressure
- * Compatible with all detergents

WHERE TO USE

- * Extraction Machine
- * Floor Scrubbers
- * Steam genie
- * CIP Systems
- * Conveyor Systems
- * Drains
- * Sewer & Waste Water Systems
- * Wet Vacuums
- * Pressure Washers
- * Spray Booths
- * Fountains
- * Recirculators
- * Cooling Towers

- * Hospitals
- * Schools
- * Food Plants
- * Sewer Departments
- * Water Departments
- * Cafeterias
- * Office Buildings
- * Country Clubs
- * Public Buildings
- * Institutions
- * Hotels
- * Restaurants
- * Carpet Cleaning Companies
- * Nursing Homes
- * Shopping Malls
- * Government Buildings
- * Motels
- * Airports

DIRECTIONS

SHAKE WELL BEFORE USING.

When using a steam or hot water extractor, begin by putting 2 oz./gal. in the pickup tank. If carpet is full of shampoo from previous cleaning, more defoamer will be needed.

For sewage treatment plants and water fountains, add defoamer until suds subside.

Authorized by USDA for use in federally inspected meat and poultry plants. **Classification A-1**, for use as a general cleaning agent on all surfaces.

SPECIFICATIONS

Fragrance.....None Color.....Milky white Flash point.....None
 pH.....7.0 Dilution.....as necessary
