

BEAR

SUPER DOUBLE-STRENGTH DEGREASER

DESCRIPTION

This powerful degreaser works where others fail! This concentrated, **double-strength product** is formulated with **thirteen different ingredients** for extremely tough jobs. It instantly **penetrates and emulsifies** grease, oil, and a variety of soils. In addition, it can be diluted with up to 100 parts water for a **low, end-use cost**. Because rust preventatives form a **corrosion-inhibiting coating** when this diluted degreaser is not rinsed from metal surfaces, it is perfect for cleaning machinery, engines, factory floors, tools, trucks, and metal parts. Furthermore, it **can be used in automatic scrubbers, pressure washers, dip tanks, or steam cleaners**. Lastly, it is nonflammable, is biodegradable, and **does not contain petroleum distillates**.

BENEFITS - FEATURES

- * Powerful
- * Rust preventatives
- * Versatile
- * Non-flammable
- * Economical
- * Biodegradable
- * Non-corrosive

ADVANTAGES

- * Instantly penetrates oily, greasy soils
- * Forms a corrosion-inhibiting coating
- * Dilutes with up to 100 parts water
- * Removes tire marks & carbon deposits
- * Use in automatic scrubbers, pressure washers, dip tanks, & steam cleaners

WHERE TO USE

- * Floors
- * Machinery
- * Motors
- * Plastic
- * Rubber
- * Walls
- * Tools
- * Steel
- * Showers
- * Concrete

RECOMMENDED FOR

- * Factories
- * Restaurants
- * Refineries
- * Print Shops
- * Power Plants
- * Garages
- * Food Processing Plants
- * Machine Shops
- * Aircraft Hangers
- * Truck Washes

DIRECTIONS

For general maintenance on floors, walls, machinery, engines, conveyors, ducts, kitchen ovens and grills, air filters, shower tile, concrete, terrazzo, white side walls:

- * Light soil.....1:100
- * Medium soil.....1:50
- * Heavy soil.....1:25
- * Very heavy soil.....1:5

Dip tank degreasing and corrosion protection: Use undiluted or dilute up to a 1:15 dilution.

Spray, steam, or pressure washing: Dilute with 30 - 50 parts water.

Automatic scrubbers: Dilute with 40-60 parts water.

Authorized by the USDA for use in federally inspected meat and poultry plants. **Classification A-4**, for compounds used as floor and wall cleaners for use in all departments.

SPECIFICATIONS

Fragrance.....Cherry almond
 pH13.2
 Shelf life.....2 yrs. min.
 Color.....Green
 Flash point.....None
 Wetting.....Excellent

Emulsification.....Excellent
 Detergency.....Excellent
 Foaming.....Moderate
 Biodegradability.....Complete
 Rinsability.....Very good

Viscosity......5 cps
 Density.....9.1 lbs/gal.
 Freeze/thaw stability.....3 cycles
 Solubility in water.....100%
 Chlorinated solvents.....None
