

# BONE-DRY

## CARPET AND UPHOLSTERY SHAMPOO

### DESCRIPTION

This product is a concentrated, synergistic blend of detergents and solvents that instantly **emulsifies** oily soils and **dissolves** dirt. It produces a rich, **thick foam that lifts and traps the soils for easy removal**. In addition, its **fast-drying** and low moisture content insure no "over wetting" of the carpet. The foam residue, which contains the trapped soil, dries into a brittle powder that **simple vacuuming removes**. Furthermore, **no tacky residue** is left to cause resoiling. This product also contains anti-static agents, optical brighteners, deodorizers, and soil retardants which **provide complete carpet care**.

### BENEFITS - FEATURES

- \* Fast-drying
- \* Traps dirt
- \* Optical brighteners
- \* Soil retardant
- \* Versatile
- \* Deodorizes
- \* Safe on all carpeting & upholstery that is not harmed by water

### ADVANTAGES

- \* Low-wetting for less down time
- \* Creates a dense, dry foam
- \* Does not attack fibers
- \* Aggressive cleaner

### WHERE TO USE

- \* Carpets
- \* Runners
- \* Rugs
- \* Mats
- \* Upholstery
- \* Cloth Wall Partitions

### RECOMMENDED FOR

- \* Carpet Cleaning Contractors
- \* Schools
- \* Institutions
- \* Hospitals
- \* Nursing Homes
- \* Restaurants
- \* Cafeterias
- \* Shopping Malls
- \* Show Rooms
- \* Public Buildings
- \* Office Buildings
- \* Government Buildings
- \* Country Clubs
- \* Athletic Clubs
- \* Hotels
- \* Motels
- \* Churches
- \* Airports

### DIRECTIONS

1. Remove obstructions and vacuum well.
2. Spot clean upholstery and carpet to remove heavy stains. Corners of carpeted areas should also be pre cleaned with a hand brush using a of 1 part to 24 parts water (5 oz. per gal. of water).
3. Dilutions: This product is formulated to work effectively at high (and economical) dilutions. Extensive field testing, with the help of professional operators, has resulted in the following dilution guidelines:

- Light Soil:** 1:50 (2 1/2 oz. per gal. of water)
- Medium Soil:** 1:32 (4 oz. per gal. of water)
- Heavy Soil:** 1:24 (5 oz. per gal. of water)
- Rotary Machines:** 1:50 (2 1/2 oz. per gal. of water) depending on soil conditions
- Dry Foam Machines:** 1:24 (5 oz. per gal. of water)
- Manual Shampooers:** 1:16 (8 oz. per gal. of water)
- Upholstery Cleaning:** 1:16 (8 oz. per gal. of cold water)
- 4. Brush damp pile or nap in one direction using a stiff bristle brush or pile lifter. This permits fast and even drying.

5. Allow carpeting to dry for several hours and vacuum thoroughly before replacing furniture. If furniture must be replaced prior to the carpet drying, place protective, plastic film or aluminum foil under legs of the furniture.

Requires no authorization by USDA prior to its use in offices and other similar nonprocessing areas.

### SPECIFICATIONS

Color.....	Blue-green	pH.....	9.1	Oil emulsification.....	Very good
Fragrance.....	Wintergreen	Foam height.....	High	Carpet wetting.....	Minimal
Freeze/thaw stability.....	3 cycles	Fumes, vapors.....	None	Hard water tolerance.....	Excellent
Spot removal.....	Excellent	Biodegradability.....	Complete	Soap content.....	None
Flash point.....	None	Optical brighteners.....	Yes	Free alkali.....	Less than .2%
