

CONTACT

FOAMING TOTAL RESTROOM CLEANER

DESCRIPTION

CONTACT is a **heavy-duty, ready-to-use cleaner** that is chemically designed to remove heavy soap scum, body and tanning oils, mineral deposits, and other soils found on **hard surfaces**. It **does not contain any hydrochloric acid**, and its fast-acting formula **offers versatility without unpleasant fumes**. It is designed to be used safely on ceramic tile, fiberglass, quarry tile, stainless steel, glass, and chrome. Furthermore, **CONTACT** produces a **rich, clinging foam** that **allows for maximum contact time**. In addition to its cleaning ability, this product also **eliminates odors as it cleans**.

BENEFITS - FEATURES

- * Removes mineral deposits
- * Removes soap scum
- * USDA authorized
- * Removes body oils
- * Pleasantly scented

ADVANTAGES

- * Thick, clinging action for vertical surfaces
