

EXCEL

HEAVY DUTY RESTROOM CLEANER

DESCRIPTION

EXCEL is a unique formula that combines our Revolutionary Acid Replacement Technology with an invisible Barrier Polymer. This highly concentrated combination offers superior cleaning ability and a protective barrier to keep surfaces cleaner longer. EXCEL cleans with the power of an acid but is as safe as liquid soap. The polymer makes subsequent cleaning easier by preventing stains and soils commonly associated with bathtubs, showers, toilets, urinals, sinks and counter tops.

DIRECTIONS

Restrooms & Showers:

Using a cloth or trigger sprayer, wet the soiled surfaces with EXCEL. Agitation may be necessary for heavy build-up, then simply rinse to produce a clean surface, with a barrier polymer protection.

Toilet Bowls & Urinals:

Remove water from the bowl by forcing it over the trap with a bowl mop. Apply EXCEL to the exposed surfaces. Swab the exposed surfaces and clean under the rim, flushing the toilet or urinal to rinse.
