

MIGHTY

DEEP-CLEANSING HARD TILE CLEANER

DESCRIPTION

Designed to be used with a variety of application procedures, this product is a **fast-acting, foam cleaner** that can be used on all types of hard tile surfaces and grout. It contains a **special blend of organic, phosphoric acids** that effectively remove body oils, soap scum, and mineral deposits in shower areas, restrooms, pools, and spas. This product is also effective in removing heavy build-ups of kitchen greases found in food service areas. In addition, it **restores** quarry tile to its **original, porous condition** and **increases the slip-resistant qualities** of the tile. This is an important feature for the safety-minded customer.

BENEFITS - FEATURES

- * Economical
- * Special blend of nonfuming acids
- * Versatile
- * Foaming "cling action"
- * Removes soap scum
- * Controls mold and mildew

ADVANTAGES

- * Removes embedded grease, oil, and grime
- * Highly dilutable
- * Safe for most kitchen floors
- * Applied conventionally or by foaming apparatus

WHERE TO USE

- * Kitchens
- * Restrooms
- * Pool Areas
- * Showers
- * Quarry Tile
- * Ceramic Tile
- * Concrete
- * Fiberglass

RECOMMENDED FOR

- * Schools
- * Institutions
- * Hospitals
- * Nursing Homes
- * Restaurants
- * Cafeterias
- * Shopping Malls
- * Country Clubs
- * Office Buildings
- * Government Buildings
- * Hotels
- * Motels
- * Churches
- * Airports
- * Factories
- * Meat Processing Plants

DIRECTIONS

Kitchen Quarry Tile:

Completely sweep all dirt and loose debris from the floor. If floor has been previously coated with wax or finish, it will be necessary to completely strip off any old coverings before using this product. May be applied directly to the floor through a water induction foam sprayer by selecting the appropriate dilution ratio for the task (per the dilution table listed). May be applied manually with a trigger sprayer or mop and bucket (per the dilution table listed). Allow foam to penetrate and loosen soil for 3-5 minutes. Agitate with rotary scrubber,

automatic scrubber, or stiff bristle broom if required. Pickup with mop and bucket, wet/dry vacuum, or if floor drains are present, squeegee to central drain location. Rinse as required.

Restroom and Shower Use:

Completely sweep all dirt and loose debris from the floor. Apply directly to the walls, shower units, and the floors through a water induction foam sprayer according to the dilution table below. Allow foam to penetrate and loosen soil for 3-5 minutes. Agitate with a stiff bristle brush or broom if required. Rinse as required.

Dilution Table

Light soil.....1 to 43.....3 oz./gal.
 Moderate soil.....1 to 21.....6 oz./gal.
 Heavy soil.....1 to 13.....10 oz./gal.
 "Shock Treatment".....1 to 526 oz./gal.

Authorized by the USDA for use in federally inspected meat and poultry plants. **Classification C-1**, for use on all surfaces in inedible product processing areas.

SPECIFICATIONS
