

PINE POWER

EXTRA HEAVY-DUTY CONCRETE CLEANER

DESCRIPTION

This product is a **combination of heavy-duty detergents and abrasive additives**. It provides a thorough cleaning of grease, oil, and other heavy soils, and it leaves a **pleasant, pine aroma**. It can be used on floors and walls (concrete and tile).

BENEFITS - FEATURES

- * Abrasive action
- * Color-indicating dye
- * Special surfactant blend
- * Completely water-soluble
- * Environmentally safe
- * Leaves a pleasant scent
- * Harmless on all types of drains and metals
- * Easy-to-use
- * Easy to spot untreated areas
- * Does not leave a powdery residue

ADVANTAGES

- * Very effective
- * Becomes fluorescent when activated
- * Free-rinsing
- * Contains no sand or other insoluble abrasives

WHERE TO USE

- * Grease
- * Oil

RECOMMENDED FOR

- * Garages
- * Poultry Plants
- * Industrial Plants
- * Meat Packing Plants
- * Food Processing Plants
- * Institutions

DIRECTIONS

For best results, scrape up caked grease and grime from floors before wetting thoroughly with water. Sprinkle cleaner freely over entire surface to be cleaned. Allow 10 to 15 minutes for cleaner to penetrate and loosen soil. Then, go over floor with stiff deck brush or floor machine. Rinse entire area with pressure hose. Squeegee for dry surface.

Alternatively, dissolve 4 to 8 ozs. of product per gallon of water and cover the entire area to be cleaned with the resulting solution. Agitate with a stiff deck brush and rinse thoroughly. Squeegee dry, if desired.

For exceptionally heavy accumulations of grease and oil, use good solvent degreaser in conjunction with product. Hot water will add to effectiveness, if available.

SPECIFICATION

Fragrance.....Pine	pH.....12.0	Flash point.....N/A
Color.....Yellow	Shelf life.....1 yr. min
