

BLAST

SOLVENT CLEANER/DEGREASER

DESCRIPTION

This complex blend of nonflammable solvents is designed for the quick and easy removal of grease, oil, dirt, lint, and wax from metals, electric motors, plating equipment, printing equipment, machinery, and tools. Best of all, it **may be sprayed on electrical equipment while running. It will not harm electric parts or wiring.** Furthermore, it **does not leave a residue**; therefore, rinsing and wiping operations are eliminated. In addition, it has a **dielectric strength greater than 30,000 volts**, is **noncorrosive**, and **does not emit toxic fumes**.

BENEFITS - FEATURES

- * Versatile
- * Fast
- * Non-flammable
- * Non-conductive
- * No residue
- * High solvency
- * Non-corrosive
- * Fast-drying

ADVANTAGES

- * Convenient package provides easy use even in those hard-to-reach areas
- * Its high solvency makes this product effective for cleaning all soil types
- * Its quick-drying and non-conductive properties makes this product perfect for electrical motors
- * Non-corrosive to all metals

WHERE TO USE

- * Electric Motors
- * Metal Parts
- * Business Machines
- * Air Filters
- * Machinery and Tools
- * Printing Equipment
- * Automotive Parts
- * Electric Fans

RECOMMENDED FOR

- * Airlines
- * Laundromats
- * Refrigeration Companies
- * Automotive Repair Shops
- * Printing Companies
- * Farmers
- * Workshops
- * Snow Removal Equipment
- * Vending Companies

DIRECTIONS

Test first on plastics, Plexiglas, and painted surfaces on an inconspicuous area.

1. Spray to thoroughly wet area to be cleaned.
2. Allow cleaner to set for a few minutes. Use a brush for heavy encrustations.
3. Rinse off with a second burst.

Requires no authorization by USDA prior to its use in offices and other similar nonprocessing areas.

SPECIFICATIONS

Spray pattern.....	Fine spray	Storage stability.....	120°F max	Dielectric strength.....	Greater than 30,000 volts
Appearance.....	Clear liquid	Shelf life.....	1 year min	Residue.....	None
Flammability.....	Nonflammable	Moisture content.....	0001% max	Net weight.....	14.0 oz
Fragrance.....	Characteristic	Metal corrosion.....	Safe on all metals
