

DRAIN POWER

SULFURIC DRAIN OPENER

DESCRIPTION

This product is a formulation of **virgin sulfuric acid** and inhibitors designed to **instantly open drains and traps** that are clogged with organic debris. Within seconds, it **digests** and **liquefies** grease, rags, hair, paper, soap, coffee grounds, food, sanitary napkins, cigarettes, animal fat, and all other types of organic debris that clog drains and traps. In addition, it is **chemically inhibited and conditioned** to be safer on pipes, fittings, and packing. Furthermore, **its penetration is three times the weight of water**. This allows the product to penetrate the water and get to the blockage.

BENEFITS - FEATURES

- * Instantly opens clogged drains
- * Odorless
- * Ready-to-use
- * Inhibited
- * Will not harm septic tank activity
- * Virgin sulfuric acid
- * Non-caking in lines

WHERE TO USE

- * Drains
- * Sinks
- * Toilets
- * Refrigeration Units

- * Apartment Complexes
- * Food Service
- * Manufacturing Plants
- * Industrial Complexes
- * Veterinary Clinics
- * Municipalities
- * Office Buildings
- * Athletic Clubs
- * Country Clubs
- * Food Plants

DIRECTIONS

After pouring acid into drain line, place an inverted plastic pail or dish pan over drain opening to minimize hazard of back-flash or fuming. Allow product to stand in drain line for the specified time. Then, flush with clear, cold water. Repeat procedure if required.

Drain Size	Product Amount/Time	Flushing Recommendations
Small drains	8 oz/5 min.	Flush for 2-3 min.
3-4" drains	1 qt/15 min.	Flush for 5 min.
6-8" drains	1/2gal/15 min.	Flush for 5 min.
Septic tanks	1 gal/500 gal. capacity	Pour into drain

WARNING: For professional use only. Can cause severe burns.

Authorized by USDA for use in federally inspected meat and poultry plants.

SPECIFICATIONS

Color.....Clear liquid	Shelf life.....Unlimited	Odor.....Odorless
