

EZ-E

EXTREME TEMPERATURE, ANTI SEIZE

DESCRIPTION

This product is an **all-purpose, anti seize lubricant and sealant** that is **formulated to be used wherever metal contacts metal**. Its unique formula **will withstand temperatures from -20°F to 2,100°F**. Furthermore, it **provides long-term protection even when it is exposed to damp or salty conditions**. It prevents galling, pitting, seizing, fretting, galvanic action, and thread distortion even under extreme pressure. Best of all, it **will not separate, evaporate, harden, wash off, or fuse to metal**. In addition, this product **also acts as a sealant and reduces friction**; therefore, it **makes tighter, firmer joints that open easier and reduce torque requirements**.

BENEFITS - FEATURES

- * Effective under extreme temperatures
- * Acts as sealant and reduces friction
- * Provides long-term protection

ADVANTAGES

- * Withstands temperatures from -20°F to 2,100°F
- * Provides tighter, firmer joints that open easier and reduce torque requirements
- * Prevents galling, pitting, seizing, fretting, galvanic action, and thread distortion

WHERE TO USE

- * Engines
- * Copper
- * Shafts
- * Steel
- * Rubber
- * Aluminum
- * Exhaust Systems
- * Motors
- * Boilers
- * Cast Iron
- * Brass
- * Plastic
- * Compressors
- * Threaded Tubing

RECOMMENDED FOR

- * Schools
- * Automotive Dealers
- * Hotels/Motels
- * Foundries
- * Airports
- * Farmers
- * Refrigeration Companies
- * Offices
- * Restaurants
- * Bowling Alleys
- * Hospitals
- * Nursing Homes
- * Laundromats
- * Snow Removal Equipment

DIRECTIONS

SHAKE CAN UNTIL AGITATOR MOVES FREELY

Be sure surface to be treated is free of dirt, dust, oil, and grease. Spray 8 to 10 inches from surface. Apply an even coating of EZ-E. After spraying, invert can and spray short blast to clear valve.

Authorized by the USDA for use in federally inspected meat and poultry plants.

SPECIFICATIONS

Fragrance.....Mild, sweetish odor	Storage stability.....120°F max.	Specific gravity.....1.394
Appearance.....Grey, viscous liquid	Boiling point.....102°F vigorous boiling	Solubility in water.....Negligible
Spray pattern.....Pinpoint	Flash point.....None up to boiling	Vapor pressure......45
Shelf life.....1 year min.	% volatile......67	Net weight.....12 oz.
