- * Telephones
- * Wash Basins
- * Counter Tops
- * Garbage Cans
- * Wrestling Mats
- * Gym Equipment
- * Changing Tables
- * Exercise Machines

Any surface in need of Cleaning & Disinfecting

DIRECTIONS

To Open: Remove lid from canister. Lift flap in center of lid. Pull up corner of center wipe, twist to a point and thread through dispenser hole in lid. Do not push finger through opening. Replace lid. Pull out exposed wipe and snap off. The next wipe pops up automatically. Dispose of used wipes in trash receptacle. Snap center flap down when finished to retain moisture.

Cleaning: Use One **NOW** wipe to completely remove surface of all debris from surfaces to be treated.

Disinfecting: To disinfect hard, non-porous surfaces, thoroughly wet the surface to be treated. Treated surface must remain visibly wet for disinfection. A potable water rinse is required for surfaces in direct contact with food. For plastic and painted surfaces, spot test on an inconspicuous area before use. For heavily soiled surfaces, use one wipe to clean and a second for disinfection. Not for personal cleansing. This is not a baby wipe. Do not flush in toilet.

SPECIFICATIONS

FormWipe Towel
 Fragrance.....Lemon
 Toxicity.....Nonhazardous
 Wetting Ability.....Excellent
 pH.....11.5 (+/-) 0.5
 Flammability.....Nonflammable
 Boiling Point.....212° F
