

ZAP

ACOUSTICAL CEILING TILE RESTORER

DESCRIPTION

ZAP is designed to **restore the appearance of ceiling tile**. This quick-drying product will cover water spots, stains, blackening around air conditioning ducts, smoke discoloration...on all types of ceiling tile and acoustical-type ceilings **without causing warping**. When used as directed, ZAP will **extend the practical life of ceiling tiles** by keeping them looking good. Its **fan spray pattern will cover even the largest stains and spots in no time!** ZAP is offered in **two colors - eggshell and white**. Therefore, not only can you match newer, white tiles; but old, yellow tiles can be matched as well. Best of all, ZAP is a **money-saver**. It **eliminates the costly need of replacing tiles or re-painting**. Not only can ZAP be used on tile, it can also be used to improve appearance of stained areas on sheetrock walls. Furthermore, **no surface preparation is required**.

BENEFITS - FEATURES

- * Easy-to-use
- * Economical
- * Versatile
- * Low odor/Quick dry
- * Makes ceiling tiles look like new
- * Available in white and eggshell

ADVANTAGES

- * No surface preparation required
- * Avoids costly tile replacement/re-painting
- * Can also be used on stained areas on sheetrock walls

WHERE TO USE

- * All types of ceiling tiles
- * Acoustical-type ceilings
- * Sheetrock walls

RECOMMENDED FOR

- * Office Buildings
- * Schools
- * Warehouses
- * Motels
- * Restaurants
- * Movie Theaters
- * Hotels

DIRECTIONS

When spraying suspended ceiling tiles, cover everything under area with cloth or newspaper. Whenever possible, remove tiles and place on flat surface for spraying. Test ZAP in a small area first to determine color match.

1. Shake can well for 1 minute after marble rattles. Shake occasionally while using.

2. Hold can about 12 inches from surface and spray one light coat over discolored area. Allow to dry. Then, follow with another light coat. Repeat until desired effect is achieved.

3. After spraying, turn can upside down and spray until no product cones out of nozzle. Remove nozzle and hold under running, warm water if clogged.

SPECIFICATIONS

Spray pattern.....Fan spray	Specific gravity (H ₂ O=1) (@25 C.)....1.20	Storage stability.....120°F max.
Appearance.....Eggshell or White	Vapor pressure (psig @ 25 C.).....55	
Odor.....Sweet Ethereal Odor	Vapor density (Air=1).....>1	
Shelf life.....1 year minimum	Evaporation rate (Butyl Acetate =1).....<1	
Net weight.....12 oz.	Solubility in water.....Insoluble
