RECOMMENDED FOR

- * Municipalities
- * Apartment Complexes
- * Nursing Homes
- * Country Clubs
- * Motels
- * Utilities
- * Hospitals
- * Schools
- * Industrial Complexes
- * Hotels

DIRECTIONS

FOR OUTDOOR USE: Best results spray early morning or late evening when insect activity is minimal. Stand a safe distance away and not directly underneath. Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire next population. Residual action will kill wasps and hornets returning to the nest. Wait 24 hours before removing nest.

To kill wasps, hornets, yellow jackets and bees from under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are notice, spray about 1 - 2 seconds or until surfaces are moist.

To prevent entrance into the house, spray around points where insects enter such as outside plumbing, faucet's, etc. and cracks or crevices in foundation as well as along sills and ledges.

FOR INDOOR USE:

Can also be used in attics, warehouses, and other storage areas where foods and feed-stuffs are not exposed.

STORAGE & DISPOSAL:

Storage: Store in a cool, dry area away from heat or open flame. Keep away from children.

Disposal: Replace cap. Wrap container in several layers or newspaper & discard in trash. Do not incinerate or puncture. May be disposed with any other recyclables where local law permits.

PRECAUTIONARY STATEMENTS:

Hazard to Humans & Domestic Animals

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Do not use in commercial food/feed handling establishments, restaurants or other sites where food/feed is commercially prepared or processed. Not for use in Federally inspected meat and poultry plants.

SPECIFICATIONS

Fragrance.....Typical
 Spray pattern.....Jet spray
 Shelf life.....1 year
 Net weight.....12 oz.

Storage stability.....130°F max
 Dielectric strength.....40,100 volts
