

BREAK-DOWN

NO RINSE FLOOR CLEANER

DESCRIPTION

BREAK-DOWN is a game changer for cleaning kitchen floors. Traditionally heavy caustic or acid products have been used to clean kitchen floors leaving behind grease, oils and fats trapped in the pores of the tile and grout. Greases, fats and oils left behind leave the floor slippery and your kitchen with a stale odor.

BREAK-DOWN is a pH Neutral formula utilizing Grease Cutting Surfactants combined with special Non-pathogenic Enzyme producing bacteria. This no-rinse floor cleaner continues to work after you put the mop away. After you finish cleaning the surface **BREAK-DOWN** will continue to digest the greases, oils and fats left behind in the pores of the tile and grout.

Not all products are created equal. **BREAK-DOWN** sets itself apart from the pack with the addition of Enzyme Fortification which means **BREAK-DOWN** hits the floor running starting to work faster and clean deeper than other bacteria based products on the market.

BENEFITS - FEATURES

- * Versatile
- * Highly concentrated
- * Rinse-free
- * pH Neutral
- * Non-flammable
- * Non-toxic
- * Non-corrosive
- * Biodegradable

ADVANTAGES
