

BREAK IT

NONFLAMMABLE LUBRICANT/PENETRANT/DEMOISTURANT

DESCRIPTION

This multi-purpose product **penetrates, cleans, lubricates, and stops corrosion** of all metals. It **displaces moisture** while eliminating squeaks and binds. In addition, it **imparts a protective, non drying film** that **never hardens**, and it is **nonflammable**. Furthermore, it can be used on all automotive, marine, electrical, farm, and mechanical equipment. It is a real "work horse"! Because it is **non conductive**, this product is also safe to spray in electrical equipment. Also, its **convenient, aerosol package** does not employ fluorocarbons that are harmful to the ozone. Therefore, it is **environmentally friendly**.

BENEFITS - FEATURES

- * Lubricates
- * Penetrates
- * Demoisturant
- * Multi-purpose
- * Seals
- * Prevents rust
- * Cleans
- * Non-flammable
- * Waterproof
- * Non-conductive

ADVANTAGES

- * Loosens nuts and bolts
- * Displaces moisture
- * Waterproofs ignition systems and terminals
- * Invisible coating protects and preserves valuable equipment
- * Solvent action loosens dirt, corrosion, and gummy deposits

WHERE TO USE

- * Controls
- * Starter Motors
- * Multiple Connectors
- * Battery Terminals
- * Terminals
- * Distributor Caps
- * Switches & Switch gears
- * Fuse & Junction Boxes
- * Spark Plugs
- * Electrical Panel Boards
- * Electrical Equipment
- * Ignition Systems
- * Alternators
- * Outboard Motors

RECOMMENDED FOR

- * Airlines
- * Laundromats
- * Refrigeration Companies
- * Automotive Repair Shops
- * Hospitals
- * Farmers
- * Workshops
- * Snow Removal Equipment
- * Vending Companies
- * Schools

DIRECTIONS

Hold can upright and depress button. Spray and leave wet. Test first on plastics, Plexiglas, and painted surfaces on an inconspicuous area.

Authorized by USDA for use in federally inspected meat and poultry plants.

Meets Mil. Spec., C-23411.

SPECIFICATIONS

Spray pattern.....Pinpoint
Appearance.....Clear liquid
Flammability.....Nonflammable
Fragrance.....Characteristic

Storage stability.....120°F max.
Shelf life.....1 year min.
pH.....N/A

Dielectric strength.....To 30,000 volts
Net weight.....13.5 oz.
