

CHARGE

GREASE TRAP DIGESTER BLOCKS

DESCRIPTION

CHARGE is a stable blend of cultured live bacteria that work around the clock. Each 3oz block contains over 50 billion **non disease-causing**, colony forming units that continuously digest grease, fats, oils, proteins, lipids, detergents and any other form of protein base items in grease trap for up to 30 days. This time releasing block provides an extremely effective odor-controlling and grease consuming bacteria. **CHARGE immediately activates** drain lines, grease traps, septic tanks, sewage treatment systems, and trickling filters. Best of all it is non-toxic, non-para, non-acid, and is completely biodegradable.

BENEFITS - FEATURES

- * Extremely powerful
- * Instant odor control
- * Activates drain lines & grease traps
- * Solubilizes grease
- * Acts immediately
- * Biodegradable
- * Non-toxic
- * Non-acid

ADVANTAGES

- * Digests and liquefies waste
- * Helps eliminate odors
- * Effective under extreme pH and extreme temperatures

WHERE TO USE

- * Grease Traps
- * Septic Tanks
- * Floor Troughs
- * Porta-Toilets
- * Dumpsters

RECOMMENDED FOR

- * Waste Treatment Plants
- * Food Service
- * Hospitals
- * Health Care Facilities
- * Food Processing Plants
- * Live Stock Ranchs
- * Manufacturing Plants
- * Office Buildings
- * Truck Stops
- * Country Clubs
- * Schools
- * Animal Shelters
- * Apartment Complexes
- * Veterinary Clinics

DIRECTIONS

Open lid to trap and toss blocks as close to the intake side of trap as possible.

1-25 gallon trap use 1 block every 30 day

25-100 gallon use 2 block every 30 days

SPECIFICATIONS

Color.....Green Specific gravity.....1.20 Density.....Solid
 Odor.....Natural Flash point.....N/A Melting Point.....140F
