RECOMMENDED FOR

- Supermarkets
 - * Manufacturing Plants
 - Factories
 - * Stores
 - * Clubs
 - * Hotels / Motels
 - Apartment Complexes
 - * Public Buildings
 - * Restaurants

DIRECTIONS

It is a violation of Federal Law is use this product in a manner inconsistent with its labeling

For General Disinfection of hard non-porous inanimate surfaces (glass, metal, plastic, glazed porcelain, linoleum, tile, leather, vinyl, enamel, and finished wood. surfaces) on walls, floors, appliances and furnishings in industrial and commercial offices, rest rooms and work area.

Cleaning and Deodorizing: Whenever practical flush away gross soils with water. For cleaning and deodorizing use 4 to 8 ounces of this product per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system, or a mechanical spraying device. After cleaning, remove suspended soils with a clean water rinse, vacuum pick up or by wiping with a clean mop, sponge, squeegee or cloths.

DISINFECTING: Before disinfecting, preclean surface as directed. Then prepare 4 ounces of this product per gallon of water and thoroughly wet the surface to be disinfected. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired the surface may then be rinsed with clear water or wiped with a clean damp cloth.

For cleaning and deodorizing of garbage cans, garbage trucks, industrial waste receptacles and other garbage handling equipment: it is especially important to preclean in order for the disinfectant to perform properly. Then apply a wetting solution of 8 ounces of this product per gallon of water.

For cleaning of walls, floors and industrial work area: Use 5 to 8 ounces per gallon of water. The use of rubber gloves is recommended for personnel doing continuous

hand cleaning. MOLD AND MILDEW: Add 16 ounces of disinfectant per gallon of water. Thoroughly wet surfaces and allow to remain wet for 10 minutes. Air dry. Repeat weekly or when growth or odor reappears. To KILL FUNGI: Pre-Clean heavily soiled

areas. Add 4 ounces of disinfectant per gallon of water. Thoroughly wet surfaces with solution and allow to remain wet for 10 minutes. Wipe surface.

This disinfectant is effective against a wide VARIETY OF GRAM-POSITIVE AND GRAM-NEGATIVE BACTERIA.
