

DE-ICE

LIQUID ICE MELT

DESCRIPTION

This product **melts ice and snow**. Therefore, it **prevents freezing** on walks, driveways, intersections, culverts, bridges, steps, ramps, loading docks, or other places that ice and snow are a problem. It may be used by sewage plants because it **does not contain any harsh, heat-generating chemicals** that would harm the operation of the plant. In addition, it can be used to help melt ice and snow on equipment. Municipal, County, and State Street and Highway Departments: Spray or pour on sand to help prevent freezing and caking. This improves thawing qualities and allows for better traction.

- * Nursing Homes
- * Restaurants
- * Cafeterias
- * Shopping Malls
- * Country Clubs
- * Office Buildings
- * Government Buildings
- * Hotels
- * Motels
- * Churches
- * Factories

DIRECTIONS

Liberally spray, sprinkle, or pour on surface to be treated. More than one application may be necessary in extreme conditions. On glazed ice, it may be necessary to score ice in several places before applying. This prevents run-off and allows better penetration. In return, it breaks the bond and allows an easier removal.

Requires no authorization by USDA prior to its use in offices and other similar non-processing areas.

SPECIFICATIONS

pH.....7.0 Color.....Light purple Fragrance.....Slight characteristic
Flash point.....75°F (SETA)
