

# DEVOUR

## SUPER-ABSORBENT DEODORIZER

### DESCRIPTION

**DEVOUR** is specifically formulated to absorb, solidify, and deodorize potentially hazardous liquids. It effectively absorbs liquids at the rate of 80-100 times its weight in just seconds! Therefore, it is economical. One container will absorb over 5 gallons of liquid. **DEVOUR** also eliminates the need for mops, rags, and towels. Furthermore, it neutralizes virtually all types of offensive odors and can be used on blood, vomit, urine, and many different chemicals. In addition, it is ready-to-use, nontoxic, biodegradable, and can be disposed of easily.

### BENEFITS - FEATURES

- \* Super-absorbent
- \* Economical
- \* Easy to work with
- \* Pleasant to use
- \* Works in seconds
- \* Eliminates need for mops, rags, & towels
- \* Non-toxic and biodegradable
- \* Deodorizes

### ADVANTAGES

- \* Absorbs 80-100 times its weight
- \* 8 oz. absorbs over 5 gallons of liquid
- \* Can be disposed of easily
- \* Neutralizes offensive odors

### WHERE TO USE

- \* Blood
- \* Urine
- \* Vomit
- \* Chemicals

### RECOMMENDED FOR

- \* Hospitals
- \* Schools
- \* Correctional Facilities
- \* Municipalities
- \* Industrial/Commercial
- \* Nursing Homes
- \* Day Care Centers
- \* Public Facilities
- \* Institutions
- \* Public Transportation

### DIRECTIONS

1. Put on disposable plastic or rubber gloves and other protective clothing as required.
2. Sprinkle **DEVOUR** over spilled fluid until completely covered.
3. When the liquid is congealed, remove with a dustpan and whisk broom or spatula. Dispose of properly. The resultant material should be treated as a hazardous chemical or biological waste.
4. Clean and disinfect biologically contaminated areas with a hospital-grade, germicidal detergent.

5. After disposing of wastes properly, wash hands thoroughly. Use an antiseptic to de germ the hands if biological wastes were involved.

**NOTE:** For cleanup of some chemicals, cover spill with water. Then, cover entire spill with **DEVOUR**. Be sure to handle with care and avoid any contact with flames because this material may be flammable (The product itself is not considered flammable, but when it is combined with other materials it may become flammable in nature).

No authorization required by USDA prior to its use in non processing areas.

### SPECIFICATIONS

Appearance.....	White powder	Volatile by weight.....	6.4%	Solubility.....	Insoluble
Fragrance.....	Vanilla	Volatile by volume.....	3.8%	Shelf life.....	1 year min.
Boiling range.....	N/A	Flash point.....	Nonflammable	Product density.....	5.0 lbs./gal. (US)
Vapor density.....	Unknown	Evaporation rate.....	Unknown	Specific gravity (H <sub>2</sub> O=1).....	0.600 g/ml
