

# DRAIN POWER

## SULFURIC DRAIN OPENER

### DESCRIPTION

This product is a formulation of **virgin sulfuric acid** and inhibitors designed to **instantly open drains and traps** that are clogged with organic debris. Within seconds, it **digests** and **liquefies** grease, rags, hair, paper, soap, coffee grounds, food, sanitary napkins, cigarettes, animal fat, and all other types of organic debris that clog drains and traps. In addition, it is **chemically inhibited and conditioned** to be safer on pipes, fittings, and packing. Furthermore, **its penetration is three times the weight of water**. This allows the product to penetrate the water and get to the blockage.

### BENEFITS - FEATURES

- \* Instantly opens clogged drains
- \* Odorless
- \* Ready-to-use
- \* Inhibited
- \* Will not harm septic tank activity
- \* Virgin sulfuric acid
- \* Non-caking in lines

### WHERE TO USE

- \* Drains
- \* Sinks
- \* Toilets
- \* Refrigeration Units
- \* Freezers
- \* Urinals

- \* Food Service
- \* Manufacturing Plants
- \* Industrial Complexes
- \* Veterinary Clinics
- \* Municipalities
- \* Office Buildings
- \* Athletic Clubs
- \* Country Clubs
- \* Food Plants

### DIRECTIONS

After pouring acid into drain line, place an inverted plastic pail or dish pan over drain opening to minimize hazard of back-flash or fuming. Allow product to stand in drain line for the specified time. Then, flush with clear, cold water. Repeat procedure if required.

Drain Size	Product Amount/Time	Flushing Recommendations
Small drains	8 oz/5 min.	Flush for 2-3 min.
3-4" drains	1 qt/15 min.	Flush for 5 min.
6-8" drains	1/2gal/15 min.	Flush for 5 min.
Septic tanks	1 gal/500 gal. capacity	Pour into drain

**WARNING:** For professional use only. Can cause severe burns.

Authorized by USDA for use in federally inspected meat and poultry plants.

### SPECIFICATIONS

Color.....Clear liquid  
 pH.....1.0 or less  
 Shelf life.....Unlimited  
 Flash point.....None  
 Odor.....Odorless
