

DYNAMOMITE

MAINLINE SEWER MAINTAINER

DESCRIPTION

DYNAMOMITE is a powerful mainline sewer maintainer that is activated by water. When water activates **DYNAMOMITE**, it starts a exothermic reaction which creates considerable heat and agitation. With its metallic prills, **DYNAMOMITE** will dissolve grease, fats, paper, rags, and other protein and carbohydrate matter, as well as, disintegrate cellulose and small tree roots. Furthermore, **DYNAMOMITE** is a excellent preventative maintenance product that will save time, labor, and money.

BENEFITS - FEATURES

- * Biodegradable
- * Generates heat upon contact with water
- * Non-Dusting
- * Will not affect septic systems
- * Stable
- * Powerful, timed exothermic formula

ADVANTAGES

- * Liquefies all organic sewage in minutes
- * Will not harm pipes, fittings, or packing
- * Non-Explosive

WHERE TO USE

Main Sewer Lines 4" and up in diameter.

RECOMMENDED FOR

- * Food Plants
- * Apartments
- * Nursing Homes
- * Poultry Processing Plants

- * Meat Packing Plants
- * Municipal Sewer Systems
- * Manufacturing Facilities

DIRECTIONS

IMPORTANT: READ ENTIRE LABEL CAREFULLY BEFORE USING.

Use only as directed on this label. Any other use may result in serious personal injury. Always wear face shield, safety goggles, rubber gloves, long sleeved clothing, and boots when using this product.

FOR MUNICIPALITIES: (per 500 feet of line)

- 4" to 6".....1 Bucket
- 8" to 12".....2 Buckets
- 14" to 18".....3 Buckets
- 18" to 20".....4 Buckets
- 20" to 24".....5 Buckets

DYNAMOMITE needs water to be activated. If sewer line is dry, cold water should be poured down the manhole after product is added. After blockage is open, flush line thoroughly with cold water.

FOR INDUSTRY: DYNAMOMITE is recommended for unclogging mainline drains (particularly in packing houses, processing plants, large apartment complexes, and manufacturers) where accumulation of large amounts of organic matter tend to clog drainage systems. Remove strainer from floor drain and add 10 lbs. of **DYNAMOMITE** to every 50 feet of sewer line to be treated. After blockage is open flush line. thoroughly with cold water.

KEEP CONTAINER TIGHTLY CLOSED WHEN NOT IN USE.

POISON

CONTAINS SODIUM HYDROXIDE (CAUSTIC SODA - LYE) CORROSIVE CAUSES SERVE EYE AND SKIN DAMAGE KEEP PRODUCT AND SOLUTIONS OF PRODUCT AWAY FROM EYES, SKIN, MUCOUS MEMBRANES AND CLOTHING. STORE IN A LOCKED CABINET. CAS # 001310-73-2.

SPECIFICATIONS

Color.....Red
Fragrance.....None

Solubility in water.....Complete
Boiling point.....2,530F(1388C)

Vapor density (air=1).....N/A
Shelf life.....1 year min.
