

FREE-FLOW

ICE MACHINE CLEANER

DESCRIPTION

FREE-FLOW is a non-foaming, non-fuming cleaner that quickly removes scale from stainless steel and nickel-plated steel. Contains special inhibitors to minimize corrosion while effectively cleaning scale from all metal surfaces. Removes built-up lime scale eliminating the cause of equipment jamming and improves ice quality and capacity.

BENEFITS - FEATURES

- * Quickly Removes Lime Scale and Mineral Build-Up
- * For Use in All Ice Machines
- * Protects Nickel Plated and Stainless Steel.

ADVANTAGES

- * Increases Ice Production
- * Eliminates Down Time
- * Safe on Nickel Plated, Stainless Steel and Tin-Plated Evaporators

WHERE TO USE

- * Ice Machines
- * Coffee Urns
- * Portable Heaters, Humidifiers/Dehumidifiers
- * Vending Equipment

RECOMMENDED FOR

|--|--|

DIRECTIONS

Turn off ice machine. Drain water reservoir and refill with fresh water, adding 8 ounces of **FREE-FLOW** per gallon of water. Start water circulating pump only and run 20 minutes. Use a brush to apply cleaner to scaled surface not adequately contacted by circulating solution. If scale is extra heavy, drain and repeat the cleaning

procedure. After scale has been removed, drain and flush 3 times. For stainless ice machine drums, add 8 ounces of cleaner per one gallon of water in a plastic container and brush the solution on the scaled areas. After cleaning flush all surfaces thoroughly with fresh water.

SPECIFICATION

Fragrance.....Characteristic	Flash point.....None
pH< 1	Solubility in water.....Complete
