HARD SURFACE CLEANER/PROTECTANT

DESCRIPTION

The product is perfect for modern, hard surfaces that require specialized cleaning and polishing. Its unique, **lemon-scented, anti-static formula** utilizes a special polishing agent that **leaves an invisible, protective shield** on all hard surfaces. This shield actually **repels airborne dust and helps neutralize static charges** without streaking, clouding, or fogging. Therefore, the **surface will stay cleaner longer**. Furthermore, this synergistic cleaner/polisher is safe to use on all modern, hard surfaces such as Plexiglas, Lexan, polycarbonates, and other acrylic surfaces. It is also excellent for CRT's, video screens, mirrors, stainless steel, glass, formica, chrome, all plastics, and a whole lot more! It gently removes dust, grease, fingerprints, and smoke film. Because it does not contain any harsh chemicals or abrasives, **it will not dull or harm factory-protective finishes.**

BENEFITS - FEATURES

- * Fast
- * Versatile
- * Lemon scent
- * Easy-to-use
- * Safe on hard surfaces
- * Contains a protective shield

ADVANTAGES

- * Quickly cuts through smoke, grease, and grime
- * Will not streak, cloud, or fog
- * Repels airborne dust & reduces static

WHERE TO USE

- * Glass
- * Mirrors
- * Chrome
- * Vinyl
- * Refrigerators
- * Stainless Steel
- * Windows
- * Plastic
- * Formica
- * Appliances
- * Aluminum
- * Painted Surfaces

- * Institutions
- * Hospitals
- * Nursing Homes
- * Restaurants
- * Cafeterias
- * Shopping Malls
- * Show Rooms
- * Office Buildings
- * Government Buildings
- * Hotels
- * Motels
- * Churches
- * Airports
- * Factories
- * Country Clubs

DIRECTIONS

Spray lightly on surface to be cleaned and polish with a soft cloth. By sealing the pores of hard surfaces such as found on glass, metal, Formica, etc., Surfaces remain free of dirt, dust, and fingerprints for much longer periods of time.

ATTENTION:

This product is safe to use on hard surfaces such as glass. Also safe to use on metal office furniture, filing cabinets, etc. It is not recommended for wood furniture because some finishes may be damaged by the alcohol in this formulation. Do not use on any floor surface-polish may leave surface slippery.

Authorized by the USDA for use in federally inspected meat and poultry plants. **Classification C-1**, for compounds used on all surfaces in inedible product processing areas, nonprocessing areas, and/or exterior areas.
