

INSTANT

GEL HAND SANITIZER

DESCRIPTION

This product is designed especially for those who must wash their hands frequently. It combines mild cleansing agents with the richest conditioners and emollients. Furthermore, it **sanitizes the hands without the use of water or towels**. Just a **small amount eliminates over 99.5% of germs** virtually on contact. However, it is so **mild** that it can be applied throughout the day **without irritation**. It leaves the hands sanitized, smoothed, and conditioned **without any antiseptic smell**. In addition, it helps **prevent bacterial transfer** and **reduces hospital acquired infections**.

BENEFITS - FEATURES

- * Convenient
- * Mild
- * Leaves skin soothed and refreshed
- * No rinse necessary
- * No residue

ADVANTAGES
