

PREVENT

ANTISEPTIC HAND CLEANER

DESCRIPTION

This antiseptic hand cleaner, made from **mild**, synthetic detergents, makes soap-type hand cleaners obsolete! It quickly removes soil and **leaves hands soft and germ-free**. This product contains 200 parts per million **PCM_X** (parachlorometaxylenol), a well known bacteriostat, which makes this product a truly **broad-spectrum antiseptic**. Protection is provided against both Gram-negative and Gram-positive bacteria.

BENEFITS - FEATURES

- * Exclusive emollient blend
