

SEVEN

NEUTRAL CLEANER

DESCRIPTION

This 100% synthetic detergent, with a **neutral pH of 7.0**, has been developed to complement the technology of today's super high-gloss floor finishes. When used as directed, it will thoroughly **wet, emulsify, and suspend soil** from highly polished floor surfaces **without attacking the gloss** of the floor. It is **guaranteed to never dull, haze, or leave a film**. An **optical brightener** has been incorporated into this formulation. Therefore, it enhances the super high-shine of the highly polished floors. Best of all, the wetting ability of this product is so outstanding that very little product is necessary to achieve excellent results.

BENEFITS - FEATURES

- * Economical - Highly concentrated
- * Does not leave film
- * Nonflammable
- * Non-corrosive
- * Biodegradable
- * Safe for all floors
- * Neutral
- * Pleasant, lemon scent
- * USDA approved

ADVANTAGES

- * Public Building
- * Government Buildings
- * Country Clubs
- * Institutions
- * Nursing Homes
- * Cafeterias
- * Manufacturing Plants
- * Show Rooms
- * Factories
- * Warehouses
- * Athletic Clubs
- * Airports

DIRECTIONS

For general use: Add 1 to 3 ounces of neutral cleaner to 1 gallon of water (depending on amount of dirt and foreign material to be removed). Spread the solution on the dirty surface with a scrub mop or sponge. Allow solution to remain on surface from 1 to 5 minutes.

For excessively dirty areas: Use a scrubbing machine or a stiff brush. Pick up dirty solution with a squeegee and pick up pan, vacuum, or mop. Rinsing is not necessary unless floor is very dirty. If this is necessary, rinse the surface with water and pick up.

Authorized by the USDA for use in federally inspected meat and poultry plants. **Classification A-4**, for use as a floor and wall cleaner.

SPECIFICATIONS
