SPARKLE STAINLESS STEEL CLEANER/POLISH

DESCRIPTION

SPARKLE is a water-based oil emulsion that removes smudges, fingerprints, water spots, and light grease deposits without leaving a greasy film. It forms a thin, satin-sheen finish that will not build-up, and it resists water marks and unsightly fingerprints. **SPARKLE** does not contain any acid or abrasive that will powder, cake, create ugly build-up, or scratch or mar the original beauty of the surface. **SPARKLE** is excellent for polishing and maintaining stainless steel equipment, machinery, tanks, outside building trims, etc.

BENEFITS - FEATURES

- * Leaves a satin-sheen finish
- * Does not contain acid or abrasive
- * Water-based oil emulsion
- * Does not build-up
- * Will not powder or cake
- * Does not leave a greasy film

ADVANTAGES
