

ULTRA FRESH

METERED AIR FRESHENER

DESCRIPTION

The Ultra Fresh Metered Air Freshener works chemically to neutralize unpleasant odors. This product is designed to be used in automatic actuating aerosol dispensers that deliver fresh fragrance every 15 minutes. One can will keep an area constantly deodorized for up to 30 days. All the active ingredients are released, making this the most effective technology for counteracting on the market today. The fine, dry mist is non-staining and the fragrance stays suspended in the air long after the offensive odor has been destroyed, creating a pleasant atmosphere.
